## Industrial Microbiology

From our suppliers in France and the US, we provide you with a full range of Biological Safety Cabinets, Decontamination Cabinets, CO2 Incubators, Fumehoods and PCR Workstations.

In addition, we supply you with top quality Pharmacy Isolators designed to meet your pharmacy's need to comply with USP 797 and USP 800 requirements for a Primary Engineering Control (PEC) or Containment Primary Engineering Control (C-PEC) for drug preparation. They can be configured either as compounding aseptic containment Negative Pressure Isolators or compounding aseptic Positive Pressure Isolators.

Finally, check out our fully automated Air Samplers, Automatic Tube and Bottle Fillers, and Media and Food Sample Preparation Systems ideal for Pharma, Industry and Food Applications.

## General Laboratory Products

For all your laboratory needs, we offer a variety of General Laboratory Products such as Baths, Hotplates, Orbital Shakers, Pipettes, Roller Mixers, RH View Box, Slide Stainers and Vortex mixers.

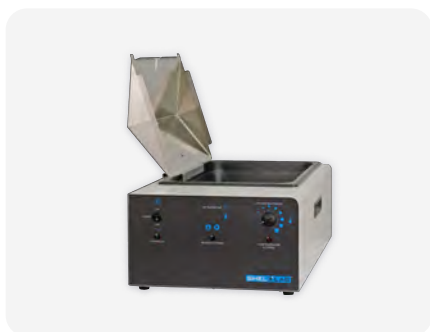

In addition, we offer a wide array Incubators, in all sizes, ranging from General Use Incubators, Refrigerated (BOD) Incubators to Shaking Incubators, which can include an option for microplates shaking.

Our ovens range from General Purpose Ovens, HAFO, Hyberdization, Muffle Furnaces and Vacuum Ovens.

Our wide variety of Temperature Controlled Cabinets will complement your lab. Our Anaerobic Chambers are ideal to control the atmosphere within the work area, namely when operating oxygen sensitive items and mainly for general isolation control while our Growth Chambers provide the user the flexibility to control the environmental conditions generally when studying plants.
